AJUNTAMENT
DE SELVA

The municipality of Selva in Mallorca has doorstep recycling of waste organized together with eight other municipalities: Alaró, Binissalem, Búger, Campanet, Consell, Mancor de la Vall, Lloseta and Santa Maria del Camí that are part of the Mancomunitat des Raiguer.

It's been 11 years since Selva started with doorstep recycling of waste, where each household deposits at the doorstep the different materials according to a weekly schedule (organic matter, light packaging, glass packaging, paper and cardboard and non-recyclable residual waste).

In the street there are containers so the rural households (outside the towns of Selva, Moscari, Caimari, Biniamar and Binibona) can deposit their waste streams.
